Notes

* Google Chrome can be installed either system wide or per user. Patch Management provides support for patching system wide installations only.

** Patch Management automatically detects missing patches, but the deployment is not automated for this product and must be performed manually by the users.

Vom CLPA-Agent unterstützte Microsoft Produkte:

Patch Management supports Microsoft patches delivered through their automated offline update delivery mechanisms WSUS or MBSA.

These missing patches are detected, downloaded and deployed network wide (on demand or fully automated) for the supported Microsoft products listed below:

Categories	
ASP.NET Web and Data Frameworks	Microsoft System Center Data Protection Manager
Active Directory	Network Monitor
Antigen	Office
Bing	Office Communications Server And Office Communicator
BizTalk Server	Office Live
